

Moving Averages — Further Reading

Free, reputable resources if you want to go deeper on moving averages.

StockCharts ChartSchool — Moving Averages: Simple and Exponential

<https://chartschool.stockcharts.com/table-of-contents/technical-indicators-and-overlays/technical-overlays/moving-averages-simple-and-exponential>

A focused walkthrough of how SMAs and EMAs are calculated and used, including as dynamic support/resistance — the natural next step after this lesson.

Investopedia — Moving Average (MA)

<https://www.investopedia.com/terms/m/movingaverage.asp>

A clear, beginner-friendly overview of moving averages and the golden cross / death cross signals covered in this lesson.

Investor.gov

<https://www.investor.gov/>

The U.S. Securities and Exchange Commission's official investor education site. Search “moving average” or “technical analysis” for plain-English background.

Investopedia

<https://www.investopedia.com/>

A huge library of plain-English financial explainers. Try searching “golden cross”, “death cross”, and “exponential moving average” for beginner-friendly deep dives on the concepts from this lesson.

Reminder: a moving average only ever describes where price has already been. Use it to clarify what's happening, not to forecast what happens next.
