

Volume — Further Reading

Free, reputable resources if you want to go deeper on volume analysis.

StockCharts ChartSchool — Relative Volume (RVOL)

<https://chartschool.stockcharts.com/table-of-contents/technical-indicators-and-overlays/technical-indicators/relative-volume-rvol>

A focused look at comparing a day's volume against its recent average — exactly the comparison this lesson's activity walks through.

StockCharts ChartSchool — On Balance Volume (OBV)

<https://chartschool.stockcharts.com/table-of-contents/technical-indicators-and-overlays/technical-indicators/on-balance-volume-obv>

An indicator that tracks cumulative buying vs. selling pressure over time, for a next step beyond reading single-day volume bars.

Investor.gov

<https://www.investor.gov/>

The U.S. Securities and Exchange Commission's official investor education site. Search “trading volume” or “technical analysis” for plain-English background.

Investopedia

<https://www.investopedia.com/>

A huge library of plain-English financial explainers. Try searching “trading volume” and “volume analysis” for beginner-friendly deep dives on the concepts from this lesson.

Reminder: volume tells you how many people participated in a move, not which direction it will go next. Pair it with the trend and price action around it rather than reading it alone.
